The artwork offered for sale on this web site are high quality prints, of graphite illustrations depicting the aircraft flown by the United States Marine Corps. All prints are on heavy art paper and suitable for framing. They are printed in archival inks that should remain stable for many decades. It is a portfolio in progress, in that new drawings are being added each month.

The artist is a retired Marine pilot who spent thirty years flying many of the aircraft represented. He attempts to put the aircraft in its natural environment, supporting Marines on the ground.

The artist invites feedback on his work. He is easily reached either by e-mail, FAX or telephone.

The 8"x11" prints are \$35.00 each and the 5"x7" are \$18.00 each. Customization is possible for a small additional charge. For instance, adding the Squadron Modex, (i.e. "YW" for HMM-165), would be \$5.00.

Shipping is by US Post Office First Class for a flat charge of \$5.00 per order, within the United States, regardless of the number of prints ordered. All recent illustrations are numbered and signed by the artist.

Your satisfaction is important. If for any reason you do not like your print, simply return it in the original shipping tube for a product refund.
